

16 MOSAIC FUSION

COLOR BY NUMBER

Hello !

If you enjoy traditional mystery mosaics, you'll feel right at home. This collection offers a zone version: neighboring squares of the same color are grouped into one larger area with a single number or letter. It gives you a soft, roomy way to reveal your hidden picture.

Why you'll love it

- Large, roomy areas that are relaxing and gentle on the eyes.
- The same magic: a hidden picture appears as you color.
- A full color key, so you always know which color to use.
- Perfect for unwinding, one zone at a time.

How to color

Every zone shows a small number or letter. Match it to the color key (right before each design) and fill the whole zone with that color.

Empty squares stay white

Zones with no number and no letter are left uncolored. Keep them white. These empty spaces are what shape the hidden picture.

Ready?

Once every numbered zone is filled in, your mystery picture is revealed. Take your time and enjoy!

I'd love your thoughts

You just colored something brand new, and I would truly love to know how it felt.

Your honest impressions help me create more relaxing mystery mosaics you'll love. It only takes a minute, and every answer means a lot to me.

Thank You.
